TODAY and TOMORROW

THE PACIFIC WAR

OKINAWA is proving to be the graveyard of the Anglo-Americans. The thrashing that the Americans have, on their own showing, so far received in and around Okinawa, has been so merciless that the American Man-Power Chief Paul V. MacNutt was forced to admit that the end of the war may be seriously delayed by the bleeding tactics employed by the Kamikaze and other Nipponese Special Attack Corps. According to Reuter's special correspondent William Hardcastle, Nipponese suicide pilots have made the struggle for Okinawa the costliest naval battle for the Allies in the whole Pacific war. The enemy's losses in this sector since March 23rd have reached the staggering total of 566 ships destroyed. But Okinawa is only a foretaste of more terrible maulings in store for the Americans as they get nearer to Nippon proper.

According to what President Truman has said in his recent message to the Congress, the Nipponese have more than 4 million troops, a force larger than the Germans were ever able to put on the Western front. Truman admits there are several more millions of men of military age not yet serving in the Nippon army. Indeed, Nippon can draw upon the millions of East Asian population, because East Asians have come to regard this war in the Far East as a struggle, not merely between Nippon on the one hand and Britain and America on the other, but between Eastern nationalism and Western imperialism. This point has been greatly clarified for East Asians by what is happening at this moment in the Levant, and by how the British Parliament is seeking to slip back the collar of slavery around the neck of what has been for the last three years the independent Burma.

In the light of all this, it is clear that the Anglo-Americans are in for a long and losing campaign in the Pacific. Their grim prospects in that part of the world are not rendered any the brighter by the fact that their relations with their own allies, the Russians and the French, are steadily deteriorating day by day. General de Gaulle makes no secret of his bitter resentment of British action in Syria and the American approval thereof. Not only from France, but also from Russia, the Anglo-Americans are drifting apart. The open deadlock at San Francisco Conference over the Big Powers' veto, caused by Russia's defiant stand is spreading to other controversial points. All this is bound to weaken Anglo-American concentration on the Pacific war, and contribute to the final victory of Nippon and her East Asiatic allies.

Arab States Now Arrayed Against Big-Five Powers

—: o :—

France Agrees To Discuss Middle East Question In Open Conference

Lisbon, June 5 (Domei)—Raising a fresh controversial issue to confound the San Francisco Conference, the spokesman for the five Arab States—Egypt, Syria, Lebanon, Saudi Arabia and Iraq—stated last night they will oppose the "Big Five" veto authority in the new world organization until France had "a constitutional and democratic responsible government," according to a San Francisco dispatch.

The Arab spokesman strongly inferred that France in its present status did not possess the authority or right to maintain that it was one of the major powers.

Meantime, Moscow Radio, quoting the San Francisco correspondent of the 'Izvestia' today lashed out at certain Anglo-American accusations that Russia was to blame for the "lack of success" at the San Francisco Conference.

"The ultra-democratic procedure adopted at the Conference, which allows everybody to speak indefinitely on any subject, move new amendments, argue about the most incontestable documents, serves as a means of obstruction for the opponents of a strong security organization," it said.

Zurich, June 6 (Domei)—The French Provisional Government today decided to submit the whole problem of the Middle East to a conference of the "Big Five" powers, according to a Paris dispatch.

A communique issued following the meeting of the French Cabinet today said, "The Government has decided to propose that, within the framework of internaional co-operation and in agreement with the interested States, the problems of the Middle East as a whole will be submitted to a conference of the five great powers."

Nippon Storming Troopers Active On Tarakan Front

Southern Pacific, June 5 (Domei)—Nippon garrison forces on Tarakan Island continue to exact heavy toll of the enemy. An infiltration party commanded by Lieut. Noda during the latter part of May stormed deep into enemy positions near Tarakan airfield and blasted three bivouacs and two supply depots besides killing 95 enemy soldiers.

In the course of this infiltration attack the Nippon side lost three soldiers who were carrying high explosives and self-blasted against enemy bivouacs. The rest of the infiltration party returned to their base unscathed.

NIPPON DEFENDERS DEPLOY ALONG NEW POSITIONS IN SOUTH OKINAWA SECTOR

—: o :—

Okinawa Invasion Venture Bloodiest In Pacific War, Declares N. Y. Times

—: o :—

Tokyo, June 5 (Domei)—Nippon forces after battling gallantly on the Naha-Shuri front completed deployment to main defence positions further to the south by last Sunday, June 3 according to frontline dispatches reaching here today. With the completion of this deployment our garrison units are now in a position to launch new counter-attacking operations against enemy troops who continue gradually to push southward from the Naha-Shuri sector, dispatches revealed.

The Nippon forces under enemy pressure had been moving gradually to the south for deployment in new defence positions in the rear since the night of May 29. While moving southward, our garrison units continued to carry on effective rearguard action, inflicting mounting losses on enemy troops.

Since June 1 enemy troops made persistent attempts to push ahead, supported by terrific naval gunfire directed on our new positions to which Nippon units deployed. Despite these enemy attempts the battleline remained without any material changes up to the night of June 2. Last Sunday, June 3, however, enemy troops succeeded in making localized advances and at present our units are in contact with southward moving enemy troops along a line north of Inamine to Tomoyose, Nagamichi and Nesashibe. After advancing to this line enemy troops have however, begun to show signs of slackening in their movements. Thus far enemy troops have failed to make any further headway in this sector.

Lisbon, June 5 (Domei)—Declaring that the Okinawa campaign has been the bloodiest yet fought on any Pacific island, the influential 'New York Times' today strongly warned the American people that the nearer the Americans approach to Nippon, the more "concentrated the enemy defence becomes," according to a New York dispatch.

"From the unopposed landing on April 1 through May 29, our losses," the 'New York Times said, "in killed and missing totalled 10,221 with 25,704 wounded."

Nippon Air Attack Corps Inflict Heavy Blows On Foe Ships Off Okinawa

Okinawa Front, June 5 (Domei)—In an attack carried out from the small hours on June 3 with improvement in the weather, units of the Shimpu Special Attack Air Corps inflicted further crippling blows on enemy surface craft in Okinawa waters. Two units namely the Wakazakura and Yuishin, commanded by Sub-Lieutenants Suzuki and Hori respectively simultaneously took off from the base at midnight last Saturday in close conjunction with other units of the Nippon army and navy air forces.

Penetrating through the enemy's patrols they finally succeeded in spotting enemy surface craft. The first report of charging into the enemy reached the base at 12.52 a.m. from a plane piloted by Sub-Lieutenant Kakei of the Wakazakura Unit. Bodycrashing charges of other planes were successively reported from the planes by radio message.

Furious Fighting Raging In Northern Luzon Area; Invasion Forces Checked

A Nippon Base at the Philippine Front, June 5 (Domei)—Nippon garrison forces in the Baguio sector are engaged in fighting 500 enemy troops supported by more than ten mountainguns, who advanced to a position twelve kilometres north of Baguio on June 3. Fierce fighting is reported also raging in the Santa Fe sector north of Balete Pass.

Along the Sabangan-Suyo highway on the other hand, our garrison units are attacking 2,00 enemy troops and furious fighting is raging. Meanwhile, fiercest fighting continues on Mindanao Island with Nippon garrison forces carrying out storming attacks against enemy mechanized units.

American Raiders Over Hanshin Intercepted; 200 B-29's Blasted

Osaka, June 5 (Domei)—Nippon army and navy interceptors and anti-aircraft batteries jointly accounted for 200 B-29 heavy bombers in counter-attacking operations against American raiders over the Hanshin district this morning, according to a joint communique released by the Headquarters of the Central Army Command and Osaka Naval Garrison Headquarters this afternoon. Of enemy planes bagged, 56 were definitely shot down and 144 others heavily damaged.

Indian Deadlock Gives Big Worry To Br. Diehards

—: o :—

Lord Listowell Pleads To End Crisis For Good Of British Raj.

The seriousness of the crisis confronting the British in India as a result of the intensification of the anti-British revolution throughout the country has been admitted by Lord Listowell, former Under Secretary of State for India.

According to a despatch from London, Lord Listowell told a British News Agency on Monday that the position in India is extremely serious and that in the interests of the British Raj, the present deadlock must not be allowed to continue. He also appealed to the British Government and people to realise the vast importance in setting the right policy for India.

Meanwhile, a few Britishers are still making frantic efforts to appease the nationalist forces in India by pretending to sympathise with India's legitimate aspirations.

In a statement on India, the English authoress, Vera Britain, has denounced Britain's present policy towards India. She says that the prolonged and obstinate failure of the British authorities to find a solution of the Indian deadlock proves very clearly that the British are unworthy to rule others.

Referring to the British-created famine which has already taken a colossal toll of Indian lives, the authoress said that the acute famine situation in India is a terrible indictment against British misrule in the country.

Concluding, she warned the British that whatever Government emerges from the July elections, India is and will continue to be a test by which other nations will judge the international conduct of the British.

Enemy Admits Loss Of U.S. Warcraft Morrison, Luce

Lisbon, June 5 (Domei)—American Fleet Admiral Chester Nimitz's Headquarters today reported from Guam that the American destroyers "Morrison" and 'Luce" have been lost with heavy casualties off Okinawa, while another "light" unit of the American Pacific Fleet was damaged by a Nippon aerial attack on Sunday.

At the same time, dispatches from American Admiral William Halsey's Third Fleet said that the Nipponese have thrown in new speedy types of fighter planes and skilled pilots in intensified aerial fighting.

Random Notes

By CHANAKYA

Hatless. Yet I do not feel sorry for it. No taking the hat off please. Back to our pristine Oriental way. To bow down is more in keeping with our tradition, culture and upbringing. I am asked to pay my humble respects to you. Ample bowings and ample genuflections. In doing so, I commend myself to you as you see me labelled on my forehead. A name that has been thrust upon me. Probably in consultation with the heavenly bodies: has the Zodiac been thoroughly investigated? Never mind. What's after all in that appellation! A lily by whatever name it may be called would be a lily all throughout. Being typically Indian, 'Chanakya' bears the full mantle of Machiavelli.

* * * *

Watch me here thrice a week. Monday, Wednesday and Saturday. Thrice feasts and thrice fasts shall make my week jolly or ugly as the case may be.

* * * *

For my feasts I shall have sometimes to depend upon you. Let us march together in a spirit of reciprocity. We live in a sphere of Co-Prosper.ty. Without crossing each other's path, let us march on sucking something pleasant across our thoroughfare even from the most sublime to the most ridiculous without being either vulgar or indecorous. Seek sermon in sands or stones, books in brooks or brooms and good in everything and nothing. That's the slogan for the day and the prelude of this column.

* * * *

Relief work among the needy and poor is no doubt a pressing problem and I note with great satisfaction that the I.I.L. authorities are quick to feel the pulse of the public. The recent appeal of the local I.I.L. chairman for more funds has a prompt and encouraging response.

Indians stand second to none in philanthropy and in India large endowments are set apart for social work and uplift of poor classes. The working class forms the backbone of Indian society here as it is elsewhere. To relieve their distress is to eradicate a vital social inequality, to educate them is to remove a social evil and to raise the status of Indians as a whole. I hope, therefore, that in view of the importance of the matter there will be a steady flow of money and materials for the relief of poor and destitute people.

* * * *

The rounding-up of Indian destitutes by the I.I.L. authorities is yet another happy sign. This is as important as the relief work itself.

This street begging can be attributed to many reasons, the chief being that the beggars are illiterate to know the baseness of their profession. In this connection I would like to suggest to the authorties concerned that, soon after the destitutes are taken to relief camps, half an hour in the morning and evening should be devoted every day to hold lecture meetings when, inter alia, the dignity of labour should be stressed to them.

France Accused Of Organising Plot In Syria

Zurich, June 3 (Domei)—In a statement on the eve of the Arab League meeting tomorrow at Cairo, Syrian Foreign Minister Jamil Mardam Bey today strongly accused the French of organizing a "plot" in Syria and emphatically declared that amicable relations between France and Syria definitely had come to an end, according to a Damascus dispatch.

The Syrian Foreign Minister denied French charges that the Syrians had attacked French installations and expressed Syrian willingness to assist in the formation of a commission to investigate the French claims.

"We have documents dated May 20 and May 26 proving that the French were preparing a plot to cause trouble in Syria," Bey declared.

Meantime, the withdrawal of French troops from heavily populated areas in Syria was reported to have gotten underway today.

The people of Damascus, dispatches said, hissed and booed as a long line of French tanks, Bren-gun carriers and lorries filled with troops filed out of the city, accompanied by British armoured cars and infantry.

The crowds yelled, "Down with de Gaulle! Down with France!"

It is authoritatively learned that French troops will temporarily be "isolated" in order to prevent any further clashes.

In Beirut, a furious Lebanese mob on Saturday was said to have broken into a French military post in the Lebanese capital and killed a French sergeant-major and two Senegalese soldiers.

Hepasol Products

After extensive research work "Newgoods" Products, Syonan, have succeeded in putting on the market three kinds of Hepasol products, namely, Hepasol Malt, Hepasol Emulsion and Hepasol Pure Oil.

Hepasol is a pure, highly refined and concentrated extract of Shark Liver Oil. It is the richest known source of Vitamin A and it is also a valuable source of Vitamin D. Extensive work was done in the former College of Medicine here and in other Research Institutes and it was found that Shark Liver Oil, prepared under proper conditions, contains more Vitamin A than Cod or Halibut Liver Oil.

Hepasol is invaluable to growing children, expectant and nursing mothers, invalids and convalescents and has been specially recommended to T.B. patients. Shark Liver Oil has been in use for a long time in hospitals, but we are told that it was not commercialised because of the abundance and keen competition of foreign makes.

Hepasol preparations have been approved by the Iryo-ka (Medical Department) and the Shoko-ka (Commerce & Industries Department) here.

Vitamin properties are very vital for the upkeep of body and the "Newgoods" Hepasol preparations can meet all your requirements.

Attlee Hits Back Churchill For Hollow Remarks

Lisbon, June 5 (Domei)—Hitting back vigorously at British Prime Minister Winston Churchill's scathing denunciation of Socialism, Clement Attlee, leader of the Labour Party, tonight said that Churchill deliberately painted a fear-inspiring picture of Socialism simply to advance the interests of the Conservative Party in the general elections, according to a London dispatch.

Churchill simply spent a lot of time and words "painting to you a lurid picture of what would happen under a Labour Government," Attlee declared, stating that the chief feature of Churchill's utterance was its gross misrepresentation of Socialism.

In his bitter attack on Socialism, the British Prime Minister forgot many things, Attlee said. He forgot that the Socialist theory, which he described as "abhorrent to British ideas," was developed in Britain long before Karl Marx by Robert Owen.

Churchill also forgot that Australia, New Zealand and the Scandinavian countries have had Socialist governments for years "to the benefit of their peoples with none of those dreadful consequences" about which Churchill speaks.

When Churchill talked of the danger of a political gesture under Socialism, he forgot that this was actually experienced in Britain only under the Tory Government of Lord Liverpool.

Churchill also forgot when he talked of the danger of Labour mismanaging finance, of "his own disastrous record at the Exchequer over the gold standard," Attlee declared.

"Scotsman" Criticises British Burma Policy

Lisbon, June 4 (Domei)—The influential Edinburgh journal "Scotsman", commenting on Burma's political future, today editorially declared that the arrangements the British have made for Burma appear definitely to serve British rather than Burmese interests, according to an Edinburgh dispatch

The chief characteristic of Britain's policy towards Burma is one of "caution," the paper said. The "Scotsman" warned that everything depends on the manner in which Britain's policy is carried out and "half-heartedness would be fatal and lead only to suspicion and distrust."

95 Enemy "Super Forts" Blasted In Kobe Raid

Osaka, June 5 (Domei)—At least 30 enemy B-29 heavy bombers are known up to 10 o'clock this morning to have been shot down and more than 65 others heavily damaged by Nippon interceptors and anti-aircraft batteries when some 350 "super-forts" operating from a southern base made an indiscriminate incendiary attack on Kobe and adjacent cities, according to a communique released by the Headquarters of the Central Army Command this morning. The communique indicated a further increase when a final checkup on results of our counter-attacking operation is completed.

24th Konan Saiken Draw Results

Results of draw of Konan Saiken 24th Issue held at the Syonan Kokaido yesterday afternoon.

1st Prize ($50,000) 540567

Anglo-American Naval Losses Off Florida Coast

Lisbon, June 4 (Domei)—A total of 92 Anglo-American vessels were sunk by submarine action off the coast of Florida and the surrounding area from February 1942 until the defeat of Germany, the United States Navy Department disclosed today, according to a Washington dispatch.

Eight hundred and eighty-two persons lost their lives in a total of 111 attacks, it was said.

Weather Restricts Aerial Action On Okinawa Front

A Nippon Base in the Okinawa Sector, June 5 (Domei)—Aerial operations both of our forces and the enemy remained comparatively inactive throughout yesterday, June 4, as inclement weather continued to prevail over the entire Okinawa sea areas. Consequently, aside from 96 enemy aircraft which appeared over Ishigaki Island, there was no other enemy activity worthy of note.

Improvements In Public Entertainment Discussed

Syonan, June 5 (Domei)—Concrete suggestions for the improvement of all types of entertainment for the masses were put forth to the authorities when a roundtable conference was held yesterday at the Konan Club between representatives of the various community bodies here and officials of the Hodo-bu and the Special Municipality.

Present at the conference were Capt. Shimizu from the Hodo-bu, Mr. M. Shinozaki and Mr. Emura from the Special Municipality, and representatives from the Oversea-Chinese Association, Indian, Malai, Eurasian and Arab Welfare Associations.

Full Independence Of Levant States Urged

Lisbon, June 4 (Domei)—A large public gathering of Muslims in Bombay today passed a resolution condemning the action of the de Gaulle Government toward Syria and Lebanon, according to a Bombay dispatch.

The resolution demanded the withdrawal of French troops and the full recognition of the independence of the Levant States.
